

# SYDNEY GAZEBO & BALI HUTS

**A GAZEBO  
FOR EVERY  
OUTDOOR  
SPACE**

Transforming ordinary spaces  
into extraordinary places

welcome

We're a family owned business with a passion for building beautiful outdoor sanctuaries. Attention to detail and quality control are paramount – we use quality materials and our experienced in-house installers are licensed carpenters who are skilled at what they do.

## Make the most of your outdoor space

Our gazebos are outdoor centerpieces, meticulously designed to suit your outdoor aesthetic. They are carefully handcrafted for function and style – and will add visual interest to any community space.

Installing a gazebo is like inviting your community to gather together. We know that spending time outdoors is the fastest way to improve health and happiness, uplift your mood and boost your mental health!

### Quality, handcrafted gazebos that bring people together

There's nothing like basking in the fresh air to make you feel alive and socially connected. A gazebo is the perfect open-air structure for spending time in the great outdoors while offering protection from the elements.

Our beautiful gazebos are convenient spaces for communities to relax, meet up with friends or enjoy some peaceful solitude. They can be intimate spaces to share quiet conversations or communal places for social gatherings.

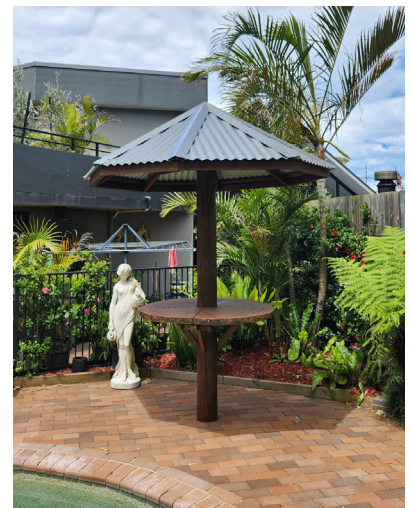

### We build gazebos for:

- 4 Schools
- 8 Nursing Homes
- 9 Retirement Villages
- 10 Council parks
- 11 Cemeteries

# Choose from our products

MULTI-SIDED GAZEBO | GARDEN ARBOURS | SQUARE GAZEBO | RECTANGLE GAZEBO | CUSTOM GAZEBO

**Multi-sided gazebo:** The octagonal shape of this gazebo is a stand-out for its blend of elegance and style - and it's one of our most popular designs. It combines the elegance and tradition of timber with the modern trend of Colorbond roofing. Available from 2.5m diameter up to 8m diameter.

**Garden arbours:** Our arbours make a sophisticated statement by adding grandeur to an outdoor space. They are a beautiful showstopper, especially when planted with a climber like wisteria or bougainvillea. An arbour can beautify a walkway or create a dramatic garden entrance.

**Square gazebo:** The compact footprint of our square shaped gazebos is ideal for smaller sized spaces without compromising on function.

**Rectangle gazebo:** The rectangle shape allows you to maximise your available floor space and is great for accommodating bench style tables and seating.

**Custom gazebo:** We specialise in bespoke designs that are tailored to your site. You can even replace Colorbond with a cedar shingle roof for timeless charm, or choose asphalt shingle for an alternate look and still maintain durability. Or upgrade your gazebo with a hardwood timber deck, flat Hampton style ceiling, fascia and gutters.

Governor Phillip King Public School, Edensor Park

## Combining learning with nature

Learning doesn't have to be confined to the four walls of a classroom. Instead, you can create an immersive environment by installing a gazebo in an underutilised area of your school where lessons can be brought to life. We convert dead zones within the school into thriving learning environments for children to engage with the curriculum – a social space where creative ideas are formed.

## Take your students' learning outdoors

A multi-sided timber gazebo is the perfect outdoor learning space to inspire students' imaginations, boost productivity and breed positivity. We have collaborated with primary and secondary schools to deliver outdoor spaces that are inclusive, peaceful and relaxing. Students can sit and chat amongst friends, eat their lunch, or retreat from the bustle of the playground. Teachers can also use the space during release time or professional development. A gazebo is also an opportunity to expand your school's footprint without the costly expense of extending buildings.

# Made to wow: we turn unused spaces into something amazing

Do you have a tricky corner of your school that lacks character?  
A wasted space that is begging for a functional cure?  
We take hard to utilise, dull spaces that offer little value  
and activate them into perfect outdoor classrooms.

Schools

BEFORE

AFTER

### Break away from the classroom & learn outside the box

Breaking away from the classroom allows students to engage in a more positive learning experience.

Our multi-sided gazebos provide enough space for teaching small groups or whole classes.

BEFORE

# Built to last

Our gazebos are 100% Australian manufactured and installed by our experienced in-house team of skillful carpenters.

They are crafted from timber which means they're sustainable too and the Colorbond roofing is low maintenance. Because we stand behind our superior products, we offer a 25-year structural warranty and 12-month workmanship guarantee.

## Create a memorable learning experience

Every school is different. So too are our gazebos. That is why we tailor our designs to suit your school's needs.

Choose from a multi-sided, square or rectangle gazebo and opt between paint or stain. Or we can tailor a solution with a bespoke design to suit your outdoor environment. You can even customise your gazebo by adding synthetic grass, built-in bench seats or outdoor blinds for a truly unique – and functional – design.

AFTER

# An outdoor space in nature to boost well-being

Our multi-sided gazebos are wonderful outdoor spaces for aged care residents to share in conversation and enjoy social interaction. They're perfect for facilitating group activities or act as calming places to rest and recuperate.

They can be used by residents seeking a temporary escape, a place to share a meal or a beautiful area for family visits. Best of all, they can be used all year round – providing plenty of shade on sunny days and warm sitting areas in the winter.

**Socialising with friends and family is a valuable opportunity to enhance the quality of life of older Australians. Time spent outside in the fresh air, sunshine and natural environment is vital for good physical and mental health.**

## Supporting the senior residents to enjoy outside spaces

There's nothing quite like a garden setting to create feelings of tranquility and peace. Our garden arbours make a beautiful statement – and when planted with fragrant climbers, they also give sensory pleasure.

Install a garden arbour at the approach to a walking path for a whimsical entrance or add one to a garden space to compliment the landscape.

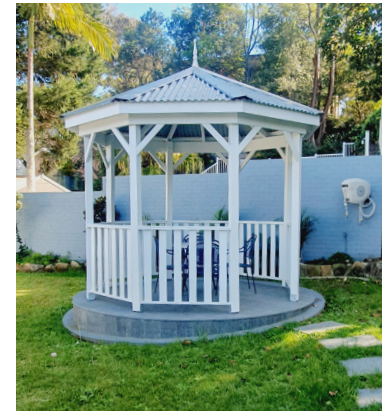

# A special space to soak up retirement living

One of the perks of living in a retirement village is the strong sense of community.

Our gazebos create opportunities for residents to interact and connect – and boost their mental health. They are the perfect places to host recreational and social activities, to gather for a drink and chat, or to relax in solitude with a book.

We thoughtfully design our structures to meet the needs of your retirement community. Choose a multi-sided gazebo to facilitate large and small groups, or a rectangle gazebo to accommodate recreational games like table tennis or life sized chess.

## Relax in shaded comfort

Walking trails and garden spaces encourage seniors to spend time in the great outdoors. Our decorative garden arbours are the perfect accompaniment to any outdoor space.

They create a beautiful entrance, particularly when they feature cascading climbing plants for shelter. When you add a bench seat, you can create an intimate space for quiet conversation or a serene place to observe nature.

**Ask us about a custom gazebo design to compliment your outdoor space and support your site's retirement lifestyle.**

Installing a shade structure like a gazebo is a simple way to elevate your public park. It increases the enjoyment for every visitor and boosts their experience. Our gazebos come in various sizes to suit multiple purposes. They're the perfect shade covering for people seeking a relaxed spot to chat or a special place to host an outdoor event.

A multi-sided gazebo creates an architectural focal point while also providing a spacious place for park-goers to gather and relax. A rectangle gazebo is ideal for covering banquet style picnic tables while several square gazebos can be installed over barbecue areas to create a picnic pavilion for the whole community to enjoy.

**A multi-sided gazebo nestled in a beautiful park sets a stunning scene for couples to exchange their wedding vows – and the opportunity for some magical photos!**

# Creating a special place for tranquil reflection

A gazebo nestled in the gardens of a cemetery or memorial park can serve as a beautiful shelter for families and visitors to rest and reflect. Our multi-sided gazebos are a peaceful place for quiet contemplation. With bench seating inside, they truly are a welcoming setting for cherishing a loved one. They can also be used to hold an intimate service to celebrate the life of a loved one.

## A place of peace and rest

A garden in a cemetery or memorial park can be a comforting place for families to mourn or remember. And a garden arbour creates a sense of peace and beauty for people grieving a loss. By adding some simple seating underneath, an arbour provides a serene space for people to be with their thoughts.

## Gazebos specially designed with your space in mind

Our gazebo designs are customised to complement your outdoor space and garden. They are made of timber and can be painted or stained. We also offer different roofing options to suit your aesthetic – from Colorbond to asphalt shingles for a more traditional look or the warmth of cedar shingles.

# A gazebo design to elevate your community space

Our gazebos are designed to maximise your landscape. They add functionality to any outdoor space by providing shaded shelter but they really come into their own as exciting places for communities to gather.

## Our process

**Consult:** Contact us to discuss your project. Then we can arrange an on-site visit for a no obligation design consultation.

**Design:** We'll design a gazebo that meets your vision and discuss our proposal with you so you have a clear idea of what your space will look like.

**Install:** Once you accept our quote, we'll get busy building and install your gazebo with minimal disruption.

**Maintenance:** We use high quality stains and paints that provide long lasting protection and keep your structure looking like new all year round. We also offer a maintenance service to help you maintain your gazebo and keep it looking its best.
